Increase your **IT speed**, not IT spend.

Entrust your network with Zip Networks branded optical transceivers, made by the same contract manufacturer as our primary manufacturer and are TAA (Trade America Act) compliant.

Zip Networks branded transceivers are individually tested, individually serialized, and individually programmed with data passed through each device prior to shipping for your peace of mind.

Insert your optic, then forget it.

Our multi-manufacturer optical transceiver offering provides you with better choices.

1 Zip networks transceivers are 100% compatible and are covered by an industry leading advanced replacement lifetime warranty.

2 High-performance, high-quality transceivers with guaranteed compatibility at an affordable price.

3 Short range, long range, GBICS, SFP's and XENPAK's supplied with advanced replacement lifetime warranty.

SOLUTION!
Each programmed and serialized device is easily viewed within the interface in the switch management.

Are poor warranties and high costs of optics slowing your network down? Let Zip Networks optical transceivers provide high performance at an affordable price.

Zip Networks is a provider of networking infrastructure technologies, cabling solutions, data center strategies and asset recovery services. Whether you're interested in cutting-edge technology for future deployments or just trying to extend the life of your previous IT investments, **Zip Networks** has the solution.

At **Zip Networks**, we nourish your mission-critical needs of today while helping plan for the future. We design, build, implement and support your voice, video and data.

Turn your **assets into cash** or credit.

Zip Networks Asset Recovery program provides an outstanding outlet for our customers' previously used equipment or legacy technology equipment. Put money in your pocket and give e-waste its proper home.

"Going green" is what we mean. Our Asset Recovery program helps the environment and assists our customers by offering recycling of used equipment and data destruction services for your protection.

Safely **reduce your e-waste** footprint.

Zip Networks Asset Recovery program provides a positive cash flow to your bottom line.

1. Your legacy technology equipment now has a permanent home. Leverage your previous IT investments towards future IT projects.
2. The reduction and removal of your e-waste is no longer a challenge with our Asset Recovery ability.
3. Gain peace of mind knowing your company's data is correctly and carefully protected by a reputable partner

SOLUTION!

Your phones, routers, switches, laptops, servers and storage equipment is worth cash or credit on account.

Safe today. Secure tomorrow. Your corporate security is improved and protected with our Asset Recovery services, both financially and environmentally.

Zip Networks is a provider of networking infrastructure technologies, cabling solutions, data center strategies and asset recovery services. Whether you're interested in cutting-edge technology for future deployments or just trying to extend the life of your previous IT investments, Zip Networks has the solution.

At **Zip Networks,** we nourish your mission-critical needs of today while helping plan for the future. We design, build, implement and support your voice, video and data.
